Revenue reached Rs 1,221.8 cr in FY26 (pro-forma Rs 1,263.1 cr, +78%) at a 9.4% EBITDA margin and 18.0% ROCE, but operating cash flow has been negative in each of the three years (Rs -108.1 cr in total) and net debt is 2.6x EBITDA; the peer-multiple and cash-flow methods give values far apart, so the price band and H1 FY27 decide the case.

Upside is shown against a range, not a price band: floor Rs 182.63 = Series B CCPS price paid in cash by Abakkus Four2eight Opportunities Fund on 17-Jul-2026 (Rs 100.0 cr, post split and bonus; p. 142); cap Rs 226.00 = the price of the promoters' secondary transfers on 10 to 21-Sep-2026, the latest priced transactions in the DRHP (pp. 102-104). Both are assumptions for a screen, not a band. The call rule uses the cap. The peer-median P/E of 121.5x (Dixon 48.6x, Amber 139.5x, PG Electroplast 121.5x, p. 135) is not used to set the reference.

Upside is shown against a range, not a price band: floor Rs 182.63 = Series B CCPS price paid in cash by Abakkus Four2eight Opportunities Fund on 17-Jul-2026 (Rs 100.0 cr, post split and bonus; p. 142); cap Rs 226.00 = the price of the promoters' secondary transfers on 10 to 21-Sep-2026, the latest priced transactions in the DRHP (pp. 102-104). Both are assumptions for a screen, not a band. The call rule uses the cap. The peer-median P/E of 121.5x (Dixon 48.6x, Amber 139.5x, PG Electroplast 121.5x, p. 135) is not used to set the reference.

Basis. Draft Red Herring Prospectus dated 24-Sep-2026, filed with SEBI on 01-Oct-2026. Audited (restated) financials run to 31-Mar-2026 and are **177 days old** at the DRHP date (204 days at the date of this note); there is no H1 FY27 data. **No price band has been announced.** The offer is up to ₹7,250 m (₹725 cr): a fresh issue of up to ₹5,250 m and an offer for sale of up to ₹2,000 m by two promoters. Lead managers: Motilal Oswal Investment Advisors and Shannon Advisors. Holding period assumed: 2 to 3 years. Grey market premium is not used.

Upside is measured against a **range of two assumed prices, not a band**: a floor of **₹182.63**, the price paid in cash for the Series B CCPS on 17-Jul-2026 (₹100.0 cr, after split and bonus; p. 142), and a cap of **₹226.00**, the price of the promoters' secondary transfers on 10 to 21-Sep-2026, the latest priced transactions in the DRHP (pp. 102-104). The peer-median P/E of 121.5x is not used to set the reference (see part 7).

A DRHP is a screen, not a decision. FY26 is the first year that includes the subsidiary Ekkaa Electronics Industries (acquired 29-Aug-2025), and FY24 revenue was ₹0.07 cr, so the RHP with H1 FY27 will be the first like-for-like read.

1. Business of the company

Ekkaa is a business-to-business original design and original equipment manufacturer of consumer electronics and appliances. It makes LED televisions (24 to 98 inch; QLED, 2K, 4K), semi-automatic washing machines, personal and commercial air coolers, multimedia speakers, induction and infrared cooktops, and smart displays, to the order of retail brands, online platforms and regional players who sell them under their own labels (pp. 242-243). It also presses metal back covers and moulds plastic cabinets in-house and runs four SMT lines at Noida, each rated at 250,000 products a month (p. 243). It offers samples in seven days and customised product in 15 to 35 days (p. 243). The R&D centre at Noida has 13 engineers (p. 243).

The company was incorporated in March 2021, started production at Noida in 2024, and commissioned a cooler plant at Ganaur in January 2026. Its subsidiary, Ekkaa Electronics Industries Pvt Ltd (EEIPL), began TV assembly at Sonipat in 2019 and was bought from the promoters on 29-Aug-2025 in a share swap (81.14% for new shares valued at ₹888 per ₹10 share, then the balance in tranches) (pp. 243, 274).

Revenue mix, ₹ m	FY26	%	FY25	%
LED televisions	8,769.80	71.78	3,610.36	72.71
Semi-automatic washing machines and washers	1,197.27	9.80	373.98	7.53
Personal and commercial air coolers	256.12	2.10	nil	n.a.
Multimedia speakers	44.61	0.37	nil	n.a.
Induction and infrared cooktops	101.11	0.83	16.46	0.33
Others (spares, smart displays, scrap, freight)	1,848.72	15.12	964.34	19.43
Total	**12,217.63**		**4,965.14**	

(p. 244.) The company has over 450 customers in 20 states and union territories; 55 customers of more than five years' standing account for 28.92% of FY26 revenue (p. 245). Customers' names are withheld for want of consent (p. 23). The margin is a conversion margin: gross profit was 16.98% of revenue in FY26 and 17.40% in FY25, and EBITDA 9.37% and 11.16% (p. 137). Employee cost is only 1.2% of revenue; contractor wages and job-work charges are booked in other expenses (pp. 74, 409).

Stage of the business: early growth, scaling fast. Two years of operating history at the parent, a subsidiary with seven years, and a revenue base that went from near nil to ₹1,222 cr. Growth is the story and the working-capital build, the funding and the customer base are what has to hold it. For valuation this means DCF inputs rest on a short record, and a trough-year or peak-year margin has little meaning.

2. Industry outlook

The industry data come from a Frost & Sullivan report dated 22-Sep-2026 that the issuer **commissioned and paid for** exclusively for this offer (p. 242); it is treated as the issuer's estimate. It sizes India's consumer-durables ODM market at ₹24,900 cr in FY26, growing at 16.9% a year over FY21-26 and projected at 19.9% a year to ₹51,380 cr in FY30. The wider consumer electronics and appliances market it covers is ₹46,900 cr in FY25 and ₹85,900 cr in FY30 (p. 245). Ekkaa puts its share of the LED TV market by volume at about 5.5% in FY26 (p. 245).

Structure: brands outsource design and assembly to ODM/EMS firms to cut overheads and time to market; the report lists reliance on imported open cells, PCBs and chipsets among the limits on local value-added, and exposure to exchange rates and import policy (industry chapter, pp. 156-241). The DRHP's listed peers are Dixon Technologies, Amber Enterprises and PG Electroplast (pp. 134-135); each is between 4 and 40 times the issuer's revenue. Demand for TVs and white goods is discretionary and cyclical, and the report notes that brands may adopt multi-vendor strategies (industry chapter).

3. Moat and SWOT analysis

Moat: narrow and unproven. The evidence for an edge is scale (5.2 m units of capacity), partial backward integration (metal pressing, injection moulding, SMT), speed (samples in seven days) and licences with global smart-TV operating-system providers (pp. 243-244). The evidence against a durable moat is that the product is built to a customer's order, customers can multi-source, the top 5 are 52.4% of revenue, there are no long-term contracts with suppliers, and gross margin is flat at 17% while revenue rose 146% (pp. 23, 30, 137). Switching costs for customers are low and the cost edge depends on volume. Over two to three years this reads as an execution advantage, not a moat; the RHP's customer-retention and repeat-order data would test it.

STRENGTHS

- Revenue Rs 1,221.8 cr in FY26, pro-forma +78.1%, from Rs 0.07 cr in FY24 (pp. 74, 137)
- EBITDA margin 9.37%, ROCE 18.0%, ROE 45.1%; interest cover 3.6x on EBIT Rs 100.9 cr (pp. 74, 137)
- Installed capacity 5.20 m units, LED TV 2.82 m; about 5.5% share of Indian LED TV volume (pp. 245, 247)
- Six product lines; non-LED TV products are 28.2% of revenue (p. 244)
- Series B of Rs 100 cr from a Category I/II AIF in Jul-2026; litigation limited to a Rs 93,433 wage claim and Rs 0.99 m of tax matters (pp. 106, 142, 434-435)

WEAKNESSES

- Operating cash flow Rs -108.1 cr over FY24-26; 52.8% of receivables past due (pp. 75, 337)
- Top 5 customers 52.4% of revenue; top supplier 46.9% of purchases; imports 76.2% (pp. 23, 29, 41)
- Net debt Rs 296.0 cr, 2.58x EBITDA; 63% of FY26 borrowings are current (p. 73)
- LED TVs are 71.8% of revenue; Noida TV line ran at 55.6% utilisation (pp. 244, 250)
- Acquired subsidiary EEIPL lost Rs 5.75 cr in FY26 (EBITDA Rs -9.02 cr) (p. 138)

OPPORTUNITIES

- Consumer-durables ODM market Rs 24,900 cr in FY26 to Rs 51,380 cr in FY30 (19.9% CAGR), issuer-commissioned (p. 245)
- Unused capacity: 2.38 m units outside LED TVs, with cooktops at 10.5% and speakers at 2.3% utilisation (p. 250)
- Ganaur cooler plant commissioned Jan-2026; blower coolers and fully automatic washers planned (pp. 243, 257)
- Rs 225 cr of proceeds retires term loans at 7.15% to 9.35% and cash credit at repo + 2.5% to 3.75% (pp. 122-124)

THREATS

- No long-term contracts with suppliers; raw materials are bought order by order, and the top supplier is 46.9% of purchases (pp. 29-30)
- Rupee: unrealised exchange loss Rs 10.1 cr in FY26 with 76.2% of materials imported (pp. 41, 75)
- Import-restriction risk on open cells, PCBs and motors (p. 41)
- Listed peers are 4 to 40 times the issuer's revenue (Dixon Rs 48,873 cr against Rs 1,222 cr) (p. 135)

4. Management analysis and governance

Promoters. Chandra Prakash Gupta (57, Chairman and Executive Director), Sagar Gupta (30, Managing Director, term to May 2031) and Madhuri Gupta (54, Executive Director) have been directors since March 2021 (pp. 285-286). Together with the promoter group they hold 80.00% of the pre-offer fully diluted capital; the three promoters hold 61.80% (Sagar Gupta 40.75%, Madhuri Gupta 10.96%, Chandra Prakash Gupta 10.09%) (pp. 105, 302). The chief executive is Praveen Goyal (p. 245). The DRHP gives the promoters' collective industry experience as over 25 years (p. 245).

Board. Six directors: three executive (all promoter family) and three independent, appointed on 21-May-2026, 21-May-2026 and 10-Sep-2026 (pp. 285-286). None has served a full audited year, and two of the three also sit on the board of Skyways Air Services, an IPO managed by Shannon Advisors, one of this offer's lead managers (pp. 286, 457).

Pay. FY26 remuneration was ₹0.875 cr (Sagar Gupta), ₹1.05 cr (Chandra Prakash Gupta), ₹0.28 cr (Madhuri Gupta) and ₹0.18 cr to two relatives, 3.6% of PAT in all (pp. 78-80).

Who sells and at what cost. Chandra Prakash Gupta and Madhuri Gupta each offer ₹100 cr, ₹200 cr in all, 27.6% of the offer. Their weighted average cost is ₹19.87 and ₹17.53 per share, against the ₹182.63 to ₹226.00 reference (p. 1). Between 10 and 21-Sep-2026 the promoters also sold about 0.8% of the capital in small lots at ₹226 per share to named buyers, including Awa Endeavor LLP, which holds Series A CCPS (pp. 102-104). The basis for offer price lists no secondary transaction (p. 143).

Related parties. The material dealings are with EEIPL while it was promoter-owned: in FY25 sales ₹104.3 cr (21.0% of revenue), purchases ₹89.4 cr (18.0%), loans taken ₹170.9 cr and interest ₹8.4 cr; in FY26 sales ₹75.8 cr (6.2%) and purchases ₹36.3 cr (3.0%) (pp. 78-80). The Sonipat site is leased from Gaurisuta Industries LLP, in which the promoters are partners: ₹0.03 m a month to March 2026 and ₹0.50 m a month since April 2026 (p. 304). These are disclosed, and the proceeds do not repay any promoter or related-party loan.

Auditor and banking. M S K A & Associates LLP was appointed on 27-Nov-2025 after the death of the previous auditor's proprietor (p. 83). It restated all three years. FY24 and FY25 were first audited on a special-purpose basis by the earlier auditor (p. 311). Lenders in the repayment list are Axis, HDFC, ICICI, Kotak, Yes Bank and

Bajaj Finance (pp. 122-124). The audit trail was enabled throughout FY26, but backup logs were kept only from 18-Feb-2026 (p. 372).

Governance read. The family controls the board and the majority; the independent directors are new. Disclosure is detailed and the litigation record is clean. The points to follow are the related-party history with EEIPL and how the new independent directors act on the audit committee.

(pp. 73-75, 137.) The unaudited pro-forma view, which includes EEIPL for all periods and removes inter-company sales, is revenue ₹433.7 cr, ₹709.3 cr and ₹1,263.1 cr, EBITDA ₹11.6 cr, ₹65.3 cr and ₹118.2 cr, and PAT ₹2.1 cr, ₹35.4 cr and ₹70.7 cr for FY24 to FY26 (pp. 137, 380-388). It has no cash flow.

Growth and margin. On the pro-forma basis revenue grew 63.6% in FY25 and 78.1% in FY26; the restated 146% includes seven months of EEIPL. Gross margin held at about 17% and EBITDA margin at 9.2% to 9.4% pro-forma. Other expenses rose to 6.36% of total income from 4.88%, and FY26 includes an unrealised exchange loss of ₹10.1 cr (pp. 75, 409).

Cash flow and working capital. Operating cash flow was negative each year. FY26 closing receivables were ₹218.6 cr (65 days of revenue, 52.8% past due, 96% of that under six months) and closing inventory ₹252.0 cr (about 91 days of cost of materials), against payables ₹196.6 cr (about 68 days of purchases) (pp. 73, 337). Incremental trade working capital was 29p per rupee of incremental revenue in FY25 and 17p in FY26 on the restated basis, but the FY26 figure includes EEIPL's acquired balances. The business is growing on borrowings and CCPS rather than on its own cash; the objects of the issue recognise this (part 7).

Leverage and returns. Borrowings are ₹308.8 cr, net debt ₹296.0 cr, 2.58x EBITDA and 1.2x net worth, with 63% repayable within a year (p. 73). ROCE of 18.0% compares with a WACC of 14.3% in our model. ROE of 45% sits on a thin equity base that was ₹38 cr a year earlier.

Is the reported P/E right? Earnings quality at Rs 226

Reported P/E is a fair measure: the adjustments found move FY26 PAT by -1.0%, within the 10% threshold. On the FY24-FY26 average, which smooths one-year items, the P/E is 85.8x reported and 86.5x adjusted.

6. Future outlook and projections

Neutral case from the valuation model; Bear and Bull are in the valuation workbook.

What the DRHP says about the future. No order book is disclosed. Growth levers named are new categories (blower coolers, fully automatic and larger semi-automatic washers), more capacity use at Noida and Ganaur, and the ODM market's growth (pp. 243, 253, 257). The only capital plans in the objects are debt repayment and working capital; no capex is funded (p. 120). Management's own plan raises working capital from ₹331.9 cr at March 2027 to ₹490.9 cr at March 2028, with inventory at ₹260.8 cr and ₹454.7 cr and receivables ₹213.3 cr and ₹383.3 cr, bank limits held at ₹42.0 cr and the rest met from proceeds, accruals, and loans from directors and related parties (p. 125). That is a rise of 74% in inventory and 80% in receivables between the two dates.

	Bear	Neutral	Bull
Revenue growth Y1 to Y5	12%, 10%, 9%, 8%, 7%	30%, 24%, 20%, 16%, 12%	40%, 32%, 26%, 20%, 15%

Terminal ROIC	12%	18%	22%
Proceeds used for capex	none	none	none
Revenue in Y5, ₹ cr (Neutral)		3,071	

Drivers. Neutral growth starts at 30%, between the F&S industry rate of 19.9% and the pro-forma 78%; there is no H1 FY27 data, so year 1 is an assumption. The margin is the through-cycle 9.3% (pro-forma FY25 and FY26 average), not the FY25 restated 11.2%. Working capital is 18%, between FY26's 22.4% and pro-forma FY25's 7.5%. Bear cuts growth to the single digits and lifts working capital to 23%; Bull holds above 30% for two years and lowers working capital to 14%. Proceeds fund no capex, so the three cases differ only in operations.

What is contracted and what has to go right. Nothing in the pages read is contracted. Four things have to go right: customers keep placing orders at current prices; the top supplier (46.9% of purchases) keeps supplying without a contract; the working-capital build is financed at 9% rather than constraining growth; and imports and the rupee behave.

7. Valuation: DCF and peer comparison (P2P)

DCF and peer values shown separately, then blended. Reference: Upside is shown against a range, not a price band: floor Rs 182.63 = Series B CCPS price paid in cash by Abakkus Four2eight Opportunities Fund on 17-Jul-2026 (Rs 100.0 cr, post split and bonus; p. 142); cap Rs 226.00 = the price of the promoters' secondary transfers on 10 to 21-Sep-2026, the latest priced transactions in the DRHP (pp. 102-104). Both are assumptions for a screen, not a band. The call rule uses the cap. The peer-median P/E of 121.5x (Dixon 48.6x, Amber 139.5x, PG Electroplast 121.5x, p. 135) is not used to set the reference.

Peer table (issuer at the ₹226 cap and ₹182.63 floor, FY26; peers at 22-Sep-2026 prices; pp. 134-135):

Company	CMP ₹	Diluted EPS ₹	P/E	P/B	RoNW	FY26 revenue growth
Dixon Technologies	13,090.00	269.35	48.6x	17.7x	31.8%	26.0%

Company	CMP ₹	Diluted EPS ₹	P/E	P/B	RoNW	FY26 revenue growth
Amber Enterprises	7,014.00	50.28	139.5x	5.7x	4.1%	22.2%
PG Electroplast	521.20	4.29	121.5x	5.0x	6.5%	8.6%
Median			**121.5x**	**5.7x**		
Ekkaa at ₹226 (P/B on pre-issue net worth)	226.00	7.77	29.1x	7.6x	26.0%	78.1% pro-forma

The three peers are the ones the issuer names; we use them as given and flag the fit. Dixon is the closest in products (televisions, washing machines) and is far larger. Amber and PG Electroplast earn PAT margins of 1.9% and 3.7%, so their trailing P/Es of 139.5x and 121.5x sit on thin earnings. The DRHP gives no peer net debt, so EV/EBITDA is not computed and the relative value uses P/E (40%) and P/B (20%), re-weighted. The blend is **50:50 DCF to relative**; there is no company-specific premium and no discount to the peer median.

DCF inputs. WACC 14.31% (risk-free 6.5%, beta 1.1, equity premium 7.0%, size premium 2.0%, cost of equity 16.2%; cost of debt 9.0%; 20% debt weight); terminal growth 4.50%. FY26 base: revenue ₹1,221.8 cr, EBITDA ₹114.5 cr, net debt ₹296.0 cr (borrowings ₹308.8 cr less cash and bank balances ₹12.8 cr), trade working capital ₹274.0 cr. Neutral free cash flow to the firm is ₹31.3 cr, ₹-4.3 cr, ₹15.6 cr, ₹43.9 cr and ₹80.2 cr over five years; the FY26 base year is ₹-220.9 cr because of the working-capital build (which includes balances acquired with EEIPL). The ₹525 cr of proceeds is credited in the bridge from enterprise value to equity (EV ₹871.2 cr, equity ₹1,100.2 cr on 107.4 m shares at the cap).

₹ per share	Bear	Neutral	Bull
DCF	53.30	102.41	151.73
Relative (post-issue)	630.23	630.23	630.23
Blended (50:50)	341.77	366.32	390.98
Blended vs ₹182.63 floor	+87.1%	+100.6%	+114.1%
Blended vs ₹226.00 cap	+51.2%	+62.1%	+73.0%
DCF alone vs ₹182.63	-70.8%	-43.9%	-16.9%
DCF alone vs ₹226.00	-76.4%	-54.7%	-32.9%

Why DCF and relative differ (-84%). The relative method applies a median P/E of 121.5x and P/B of 5.7x to a company that earns a 5.35% PAT margin; the peers' trailing multiples are between 1.7 and 6 times the 23.5x to 29.1x at which the issuer's own investors have recently bought. Narrowing the peers to Dixon alone leaves the relative value at ₹623, because Dixon trades at 17.7x book. The DCF prices the cash a 9.3% EBITDA-margin business with a working-capital intensity of 18% can release, and 88.4% of its enterprise value is the terminal value, so it is mostly a view on long-run margin and returns. The two methods have separated on whether the market will pay for the growth and the scale that peers have shown, or for the cash this business has yet to produce. **The relative value is not reliable here** and the Fund does not rest a view on it: it measures what listed peers fetch, not what a new, thin-margin ODM would. The DCF does not rest on the market's pricing of peers at all. The truth lies between, and the price band will show where the offer sits.

Reverse DCF. Current free cash flow is negative, so no multiple of it can be stated: the price assumes cash generation improves from here. Holding the Neutral growth path, justifying ₹182.63 needs a steady-state EBIT margin of 25.1%, and ₹226 needs 30.1%, against 8.3% in FY26; it is unreachable through working capital alone (the 22.4% intensity would have to turn negative). Three of the four levers are not meaningful or unreachable,

and the fourth asks for three to four times today's margin. A lower price or evidence of a higher through-cycle margin would change this.

Objects floor. None: the fresh issue is amount-based, so no share count fixes a floor price. Identified objects are ₹375 cr (71.4% of ₹525 cr); expenses and general corporate purposes (up to 25% of gross proceeds, p. 120) take the remaining ₹150 cr.

Guards. Terminal value share 88.4% (above the 75% amber line); WACC less terminal growth 9.8% (clear); terminal ROIC 18% above WACC (clear); divergence of -84% (above the 25% line, explained above).

8. Areas to watch and growth drivers

Growth drivers to track: LED TV volume against the Noida line's 55.6% utilisation; the ramp of coolers (₹25.6 cr of revenue in FY26) and of cooktops and speakers, which are at 10.5% and 2.3% utilisation; new customers beyond the top ten; the share of revenue outside LED TVs (28.2% in FY26).

Points to monitor (normal-course items, each reported once):

- *Cash conversion.* Operating cash flow ₹-108.1 cr over three years while revenue grew 17,000-fold from a near-nil base; receivables 65 days with 52.8% past due (pp. 75, 337).
- *Customers.* Top customer 16.9%, top 5 52.4%, top 10 65.8% (80.4% in FY25); names withheld (p. 23).
- *Suppliers and imports.* Top supplier 46.9% of purchases (31.9% in FY25) with no contract; imports ₹802.6 cr, 76.2% of purchases; unrealised exchange loss ₹10.1 cr (pp. 29, 41, 75).
- *Related-party history.* EEIPL sales were 21.0% of FY25 revenue and 6.2% of FY26; the Sonipat lease rises to ₹0.50 m a month (pp. 78-80, 304).
- *Tax rate.* Current tax 18.3% of PBT in FY26 and 15.6% cumulative against 25.17%; the reconciliation was not located (p. 74).
- *Diluted EPS.* The printed ₹9.04 excludes the CCPS shares; ₹7.77 on the full count (pp. 70, 133).
- *Debt.* Borrowings ₹396.1 cr at 31-Jul-2026 against ₹308.8 cr at 31-Mar-2026; the Bajaj Finance term loan of ₹65 cr disbursed 17-Jun-2026 for land and general purposes carries no prepayment right for 24 months, then 2% (pp. 42, 122).
- *Purchase accounting.* The restated accounts book a ₹2.04 cr bargain-purchase capital reserve on EEIPL; the pro-forma shows ₹8.50 cr of goodwill (pp. 340, 381).
- *Eligibility.* The offer uses Reg 6(2): 75% to QIBs or it fails (p. 448).

What would change our view (measurable, from the RHP and H1 FY27 results):

1. Operating cash flow positive for H1 FY27, or cumulative CFO/PAT above 50% for the full year.
2. A top-5 customer share below 45% and the top supplier below 35% of purchases.
3. Receivables past due below 30% and closing receivable days below 60.
4. The upper end of the band against the ₹182.63 paid by the last institutional investor (23.5x fully diluted FY26 EPS): a band at or below it would narrow the gap to the DCF value; a band above ₹226 (more than 29x) with no improvement in cash flow would widen it.
5. Net debt to EBITDA below 2.0x after the issue and no further rise in borrowings between March and the RHP date.
6. The top-10 customer list and the supplier named, with any link to the promoters stated.
7. A reconciliation of the 18.3% current-tax rate.

9. Conclusion

CALL

Screen only

STAGE

Mainboard · DRHP

Revenue reached Rs 1,221.8 cr in FY26 (pro-forma Rs 1,263.1 cr, +78%) at a 9.4% EBITDA margin and 18.0% ROCE, but operating cash flow has been negative in each of the three years (Rs -108.1 cr in total) and net debt is 2.6x EBITDA; the peer-multiple and cash-flow methods give values far apart, so the price band and H1 FY27 decide the case.

Screen only. There is no price band, and the DRHP is a screen. The call rule (hard rule 6) needs a band, so no limb is applied. The evidence is balanced: a business that has grown revenue to ₹1,222 cr in two years at a 9.4% EBITDA margin and 18% ROCE, with capacity to grow into and a clean legal record, set against three years of negative operating cash flow, concentrated customers and suppliers, 2.6x net debt to EBITDA and a related-party history with the company it bought.

At the assumed reference range of ₹182.63 to ₹226.00, the Neutral DCF value is ₹102 (-44% to -55%), the Bull DCF ₹152 (-17% to -33%), and the peer-multiple value ₹630, which we do not rely on. The blended Neutral value is ₹366 (+62% against the cap). That figure comes entirely from peer multiples between 1.7 and 6 times those at which the issuer's own investors bought. **The fair value range on the cash-flow method is ₹53 to ₹152 with ₹102 as the Neutral point; on the market's pricing of listed peers it is far higher.**

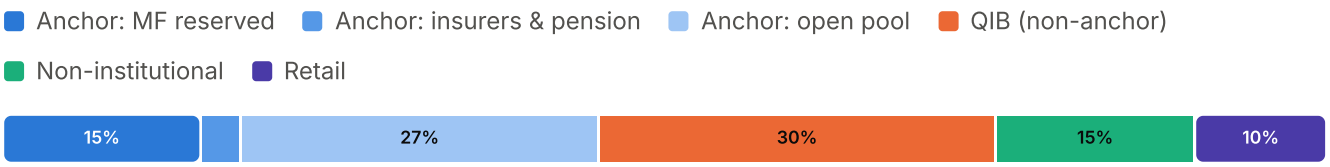

Two things decide the case: whether the RHP and H1 FY27 show operating cash flow turning positive as revenue grows, and where the price band sits against the 23.5x to 29.1x the last priced transactions imply. No capital should be committed until the RHP is read.

#	CHECK	RESULT	FINDING	PAGE
1	Bonus issue / share-count consistency	! Watch	Bonus (1:1 on 28-Aug-2025, 3:1 on 20-Aug-2026) and the 1:2 split (Aug-2026) are applied in every EPS and price shown. Diluted EPS (Rs 9.04) equals basic EPS although 15,655,864 shares will be issued on CCPS conversion before the RHP; on the fully diluted pre-offer count of 84,197,664 shares FY26 EPS is Rs 7.77, 14% lower than the printed figure.	pp. 133, 70, 142
2	Cash flow vs profit	! Watch	Operating cash flow is negative in all three years: Rs -15.28 cr (FY24), Rs -64.11 cr (FY25), Rs -28.66 cr (FY26); cumulative Rs -108.05 cr against cumulative PAT of Rs 84.88 cr. FY26 absorbed Rs 97.26 cr in receivables and Rs 38.90 cr in inventory. The business grew from Rs 0.07 cr to Rs 1,221.76 cr of revenue in two years, so a build is expected, but no full working-capital cycle has yet been seen.	p. 75
3	Current vs deferred tax	! Watch	Current tax Rs 14.54 cr on PBT Rs 79.63 cr = 18.3% in FY26 (6.7% in FY25); cumulative current tax Rs 16.37 cr on cumulative PBT Rs 104.88 cr = 15.6%, against the 25.17% statutory rate. Tax actually paid was Rs 5.26 cr in FY26; current tax liability stood at Rs 13.17 cr at 31-Mar-2026. The DRHP pages read do not give a reconciliation of the lower rate.	pp. 74, 75
4	Related-party capex & subsidiaries	! Watch	Ekkaa Electronics Industries Pvt Ltd (EEIPL) was owned by the promoters Chandra Prakash Gupta and Madhuri Gupta until 29-Aug-2025. Sales to EEIPL were Rs 104.34 cr (21.0% of FY25 revenue) and Rs 75.81 cr (6.2% of FY26 revenue); purchases from it Rs 89.45 cr (18.0%) and Rs 36.30 cr (3.0%); loans taken from it Rs 170.85 cr in FY25 at Rs 8.40 cr interest. The promoters were paid in shares for 81.14% of EEIPL, valued at Rs 888 per Rs 10 share. The Sonipat site is leased from Gaurisuta Industries LLP (promoters are partners), rent Rs 0.03 m a month to Mar-2026 and Rs 0.50 m from Apr-2026. No proceeds go to a subsidiary or a promoter entity.	pp. 78-80, 274, 304
5	Objects arithmetic as price floor	– N.A.	Fresh issue is amount-based (up to Rs 525 cr), so there is no fixed share count and no price floor from the objects. Identified objects are Rs 375 cr (71.4%): debt repayment Rs 225 cr and working capital Rs 150 cr (Rs 20 cr in FY27, Rs 130 cr in FY28). General corporate purposes may be up to 25% of gross proceeds. No capex is funded.	pp. 119-120
6	Revaluation reserve	✔ Pass	No revaluation reserve in the restated reserves note.	p. 340
7	Goodwill vs tangible equity	! Watch	The restated accounts recognise a bargain-purchase capital reserve of Rs 2.04 cr on EEIPL and no goodwill; the unaudited pro-forma balance sheet shows goodwill of Rs 8.50 cr on the same acquisition (p. 381). The two treatments differ; the pro-forma goodwill would be 3.4% of net worth, the restated capital reserve 0.8%.	pp. 340, 379

The Form ADT-1 for the 5-year re-appointment from 1-Apr-2026 was pending when the DRHP was filed.	pp. 82-83, 311
R2	CARO / audit trail	! Watch	The audit trail was enabled and operated throughout FY26, but backup logs were kept only from 18-Feb-2026; periodic backups from 1-Apr-2025 to 17-Feb-2026 were taken without a retained log.	p. 372
R3	Monitoring agency	! Watch	The company will appoint a monitoring agency before the RHP (Reg 41); not yet named.	p. 88
R4	Eligibility re-computation	! Watch	The offer is made under Reg 6(2) because the issuer does not meet Reg 6(1)(b) (monetary assets are 0.92% of net tangible assets in FY26 and the operating-profit test fails in FY24 at Rs -1.20 cr): at least 75% of the net offer must go to QIBs or the offer fails and subscriptions are refunded. Net tangible assets Rs 253.25 cr, net worth Rs 251.53 cr and average operating profit Rs 48.78 cr at FY26.	p. 448

Appendix A: Offer, anchor book and lock-ins

- **Offer:** fresh issue up to ₹5,250 m plus an offer for sale of ₹2,000 m (₹1,000 m each by Chandra Prakash Gupta and Madhuri Gupta); total up to ₹7,250 m; shares and price [●] (pp. 69, 119). A pre-IPO placement of up to 20% of the fresh issue may be made first and reduces the fresh issue (p. 70).
- **Objects (p. 120):** repayment or prepayment of borrowings ₹2,250 m (all in FY27); working capital ₹1,500 m (₹200 m FY27, ₹1,300 m FY28); general corporate purposes up to 25% of gross proceeds. Identified objects are 71.4% of the fresh issue. Loans listed total ₹2,602.5 m outstanding at 31-Jul-2026 across Axis, Bajaj Finance, HDFC, Yes Bank, ICICI and Kotak (pp. 122-124). No proceeds go to the promoters except through the offer for sale.
- **Structure (Reg 6(2)):** at least 75% QIB (up to 60% of QIB to anchors, one-third of anchor to mutual funds, 6.67% to insurers and pension funds), up to 15% non-institutional, up to 10% retail (pp. 69-70, 448). Anchor allocation is discretionary; anchor shares are locked in for 50% 30 days and 50% 90 days, so they cannot be sold on listing day (p. 106).
- **Lock-ins (DRHP, confirm in RHP):** promoter minimum contribution of 20% of post-offer capital for 18 months (about 214.9 lakh shares at ₹226); the rest of the promoters' holding for six months (about 217.0 lakh, after the OFS); promoter group (153.2 lakh) and pre-issue non-promoter holders (168.4 lakh, including Abakkus at 6.5%) six months (pp. 105-106). The promoters' excess (217.0 lakh), the promoter group (153.2 lakh) and the pre-issue holders (168.4 lakh) all come free at six months: 538.6 lakh shares against an offer of about 320.8 lakh, so **the first unlock is larger than the float at listing**.
- **Pre-IPO capital:** Series A CCPS (1,097 shares) at ₹105.25 per post-split, post-bonus share, Sep-Oct 2025, and Series B (684,463 CCPS) at ₹182.63, 17-Jul-2026; WACA for the last 18 months ₹132.31 (p. 142). Both convert before the RHP into 15,655,864 shares (p. 70). A 1:1 bonus (28-Aug-2025), a 1:2 split and a 3:1 bonus (Aug-2026) are done (pp. 102-103, 142).

No check is a FAIL: nothing meets the material-issue test. The working-capital build has a business reason (a near-nil to ₹1,222 cr ramp) and the period is not a full cycle; the related-party dealings are disclosed.

Appendix D: Data gaps and verification

Item	Severity	Source
Price band, offer price, share counts, offer expenses and general corporate purposes are [●]	High	RHP
No H1 FY27 data; financials 177 days old at the DRHP date	High	RHP
FY26 includes EEIPL only from 29-Aug-2025; the pro-forma has no cash flow	High	DRHP pp. 375-388
Names of top customers and suppliers withheld; the 46.9% supplier is not identified	Medium	Issuer / RHP
Reconciliation of the 18.3% current-tax rate	Medium	DRHP income-tax note
Peer EBITDA and net debt not in the DRHP; EV/EBITDA not run	Low	Exchange filings
Shannon Advisors' owner and listing status not sourced	Low	BSE / MCA

Verification. Reported totals reproduce. FY26: expenses ₹11,487.70 m, PBT ₹796.30 m, PAT ₹653.79 m; the balance sheet balances at ₹8,398.03 m (non-current ₹3,052.60 m plus current ₹5,345.43 m; equity ₹2,515.25 m plus liabilities ₹5,882.78 m); EBITDA ₹1,145.34 m reproduces the issuer's KPI table (PBT 796.30 + finance 278.76 + depreciation 136.65 - other income 66.37). FY25 and FY24 EBITDA (₹554.04 m and ₹-4.08 m) and balance sheets (₹4,436.22 m and ₹2,025.82 m) reproduce, and the cash-flow statements net to the change in cash. No arithmetic error was found in the document or in our extraction. The pro-forma goodwill differs from the restated capital reserve on the same acquisition, which is a disclosure difference and not an arithmetic error. Peer P/E ratios reproduce from price over diluted EPS (13,090 / 269.35 = 48.60; 7,014 / 50.28 = 139.50; 521.20 / 4.29 = 121.49).
