IPO ANALYSIS REPORT · RHP

Johnsoncab Electricals Limited

SME · Low-voltage wires and cables (Mehsana, Gujarat) · filed – · lead manager(s): ISK Advisors Private Limited · issue size Rs 56 cr · price band: Rs 190-200 · analysed 2026-10-28

CALL **Neutral**

BUSINESS STAGE Early scaling (revenue up 2.4x in two years; issue funds new capacity and working capital)

A Gujarat low-voltage cable maker that has grown revenue 2.4x in two years to Rs 210 cr and lifted EBITDA margin to 11.4%, priced at 15.8x FY26 earnings against a 20x SME-cable peer median; our fair value is Rs 176 (Neutral) because growth has been funded by debt and working capital, leaving little free cash flow.

Revenue FY26 **₹210 cr** CAGR FY24-FY26: **53.8%**	PAT FY26 **₹13 cr** CAGR FY24-FY26: **130.8%**	EBITDA margin **11.4%** FY24: **6.1%**	Cash conversion (CFO / PAT, 3 yrs) –
Cash tax rate (3 yrs) –	P/E at reference (post-issue) **15.8x** peer median: **20.2x**	Adjusted P/E (earnings quality) **15.8x** reported: **15.8x**	Blended value (Neutral) **₹176.49** vs reference: **-11.8%**
Reference price **₹200** Upper band Rs 200 (28,00,800 fresh shares, Rs 56.02 cr). At Rs 200: market cap Rs 211.4 cr post-issue; P/E 15.75x on FY26 PAT (11.58x pre-issue); P/B 2.51x post-issue; EV/EBITDA about 9.9x. Peer median P/E 20.2x. Objects floor Rs 159.

CALL

Neutral

STAGE

SME · RHP

A Gujarat low-voltage cable maker that has grown revenue 2.4x in two years to Rs 210 cr and lifted EBITDA margin to 11.4%, priced at 15.8x FY26 earnings against a 20x SME-cable peer median; our fair value is Rs 176 (Neutral) because growth has been funded by debt and working capital, leaving little free cash flow.

Business stage

Early scaling (revenue up 2.4x in two years; issue funds new capacity and working capital)

Revenue FY26 **₹210 cr** CAGR FY24-FY26: **53.8%**	PAT FY26 **₹13 cr** CAGR FY24-FY26: **130.8%**	EBITDA margin **11.4%** FY24: **6.1%**	Cash conversion (CFO / PAT, 3 yrs) **–**
Cash tax rate (3 yrs) **–**	P/E at reference (post-issue) **15.8x** peer median: **20.2x**	Adjusted P/E (earnings quality) **15.8x** reported: **15.8x**	Blended value (Neutral) **₹176.49** vs reference: **-11.8%**
Reference price **₹200** Upper band Rs 200 (28,00,800 fresh shares, Rs 56.02 cr). At Rs 200: market cap Rs 211.4 cr post-issue; P/E 15.75x on FY26 PAT (11.58x pre-issue); P/B 2.51x post-issue; EV/EBITDA about 9.9x. Peer median P/E 20.2x. Objects floor Rs 159.			

Basis. A book-built **SME issue on BSE SME** of **28,00,800 fresh equity shares** (no offer for sale), price band **Rs 190-200**, lot 600 shares (retail minimum two lots, 1,200 shares = Rs 2,40,000 at the upper band); bid/issue **30-Oct to 3-Nov-2026**, allotment 4-Nov, listing 6-Nov-2026 (tentative). Issue size **Rs 56.02 cr**

at Rs 200. Sole BRLM ISK Advisors Private Limited; registrar Maashitla Securities; market-maker reservation 1,41,600 shares.

Provisional: the RHP could not be read. SME offer documents are filed with the exchange, not SEBI, and the BSE SME hosts (www.bsesme.com, api.bseindia.com) are blocked in this environment. Figures are the restated standalone financials to **31-Mar-2026** as reproduced from the offer document by public IPO trackers (IPO Platform, IPO Central, HDFC Sky, Chittorgarh, unp.me), cross-checked against each other on 28-Oct-2026. **No page cites are possible.** Where a figure is our estimate rather than a reported one, it is labelled. The report will be refreshed when the RHP is reachable.

Judged at the **upper band, Rs 200**. Holding period assumed: 2-3 years. Grey market premium is not used. Written from an investor's point of view under the Fund's standing rules. Depth: **SME snapshot** (the nine parts, shorter).

1. Business of the company

- **What it does:** manufactures **low-voltage wires and cables up to 1.1 kV** under the "Johnson Cables" brand. The range covers power, control, house/building wires, solar, submersible flat and welding cables.
- **Plants:** two manufacturing units in **Mehsana, Gujarat**, with combined installed capacity of **79,950 km a year** (FY26). Utilisation is not available without the RHP.
- **Customers:** a mix of private companies, government entities and distributors/dealers. The split and concentration are not available.
- **Promoters:** Chandreshkumar Shankerlal Patel, Anjal Chandreshkumar Patel and Bhavanaben Chandreshkumar Patel.

Stage of the business

Classification: early scaling.

Evidence	Reading
Revenue Rs 88.95 cr (FY24) → Rs 140.00 cr (FY25) → Rs 210.47 cr (FY26)	54% CAGR from a small base
EBITDA margin 6.14% → 8.68% → 11.43%	Scale benefits showing
Borrowings Rs 32.81 cr → Rs 41.79 cr → Rs 79.88 cr; total assets Rs 48.44 cr → Rs 126.64 cr	Growth funded by debt and working capital
Issue funds a new shed, plant and machinery, rooftop solar and Rs 14 cr working capital	The next leg of capacity comes from the IPO

2. Industry outlook

- **Demand:** low-voltage cables go into housing, commercial buildings, industry, agriculture pumps and solar installations. Housing, infrastructure spending and rooftop/utility solar are steady drivers.
- **Structure:** the market is fragmented. National brands (Polycab, KEI, Finolex, RR Kabel, Havells) lead the organised segment, with many regional manufacturers below them. Small players compete mainly on price, dealer reach and government tenders.
- **Economics:** copper and aluminium are most of the cost and largely passed through, so margins are thin (high single digits to low teens) and working capital is heavy, especially when selling to government

customers.

- **Read for an investor:** a growing market with room for regional players, but returns depend on working-capital discipline and the copper cycle rather than pricing power.

3. Moat and SWOT analysis

Moat

- **Product breadth and approvals:** a wide LV range lets the company serve dealers and project customers from one source.
- **Regional cost base:** Gujarat manufacturing close to western-India demand.
- **Limits:** no structural barrier against larger brands. The edge is execution and relationships, which the RHP would let us test.

STRENGTHS	WEAKNESSES
• Revenue CAGR 54% FY24-26 to Rs 210.47 cr • ROE 42.7% and ROCE 39.7% in FY26 • Wide LV range: power, control, building, solar, submersible and welding cables • Two plants in Mehsana, 79,950 km a year installed	• Debt/equity 2.54x before the issue • Thin cash generation: working capital absorbs profit • Small scale against national cable brands • Single-region manufacturing
OPPORTUNITIES	**THREATS**
• Housing, infrastructure and solar demand for LV cables • Paper-insulated conductors for transformer makers (new line) • Rooftop solar lowers power cost	• Copper and aluminium price swings • Price competition from organised and unorganised makers • Delayed payments from government customers

4. Management analysis and governance

- **Promoters:** the Patel family (above) founded and runs the business. Pre-issue and post-issue promoter holding is not available without the RHP. As a fresh-issue-only offer, it dilutes all holders by about 26.5% (28.01 lakh new shares on about 77.69 lakh existing).
- **Board, pay, related-party transactions and litigation:** not available without the RHP. The trackers report no material litigation, but we have not been able to verify this.
- **Read:** a founder-run SME. No governance issue is visible in the data available, but the checks that matter most for an SME (related-party dealings, promoter pay, litigation) remain open until the RHP is read.

5. Historical financials and ratios

Restated figures, Rs crore. Hover a mark for its value; open "Data table" under any chart for the numbers.

Rs crore	FY24	FY25	FY26
Revenue (FY24-25 total income)	88.95	140.00	210.47
EBITDA (issuer KPI)	5.42	12.14	24.06
EBITDA margin	6.14%	8.68%	11.43%
PAT	2.52	5.46	13.42
PAT margin	2.8%	3.9%	6.38%
Net worth	8.88	14.24	31.44
Reserves and surplus	5.88	11.24	23.67
Total borrowings	32.81	41.79	79.88
Total assets	48.44	64.28	126.64
Debt / equity	3.69x	2.93x	2.54x
ROE (FY26, issuer)			42.68%
ROCE (FY26, issuer)			39.68%
EPS (Rs, FY26) / NAV (Rs)			17.81 / 40.47

Source: restated standalone financials as reproduced by IPO Central, unp.me, HDFC Sky and Chittorgarh. FY26 total income is Rs 211.34 cr (revenue Rs 210.47 cr plus other income Rs 0.87 cr). Cash flow, receivables, inventory and payables are not available.

At the upper band (Rs 200): post-issue shares 1.0570 crore; market cap **Rs 211.4 cr**. P/E **15.75x** on FY26 PAT (11.58x on pre-issue shares). Post-issue net worth about Rs 84.10 cr, P/B 2.51x; EV/EBITDA about 9.9x. At Rs 190: market cap Rs 200.8 cr, P/E 14.96x.

Positives and points to monitor

Positives	Points to monitor
Revenue CAGR 54%, margin rising each year	FY26 margin untested by a second year
ROE 42.7%, ROCE 39.7%	Debt/equity 2.54x; borrowings up 91%
Objects floor Rs 159, below the band	Working capital absorbs profit (estimated 45% of revenue)
P/E below the SME-cable peer median	Cash flow statement not seen

Is the reported P/E right? Earnings quality at Rs 200

Reported P/E is a fair measure: the adjustments found move FY26 PAT by +0.0%, within the 10% threshold. On the FY24-FY26 average, which smooths one-year items, the P/E is 29.6x reported and 29.6x adjusted.

BASIS	PAT (RS CR)	EPS (RS)	P/E
Reported FY26	13.42	12.7	**15.8x**
FY24-FY26 average, reported	7.13	6.75	**29.6x**
FY24-FY26 average, adjusted	7.13	6.75	**29.6x**

Items found (pre-tax, Rs crore; negative reduces profit)

ITEM AND REASON	FY24	FY25	FY26	IN ADJUSTED P/E	CONFIDENCE	FY26 P/E IF APPLIED	PLACE
Other income in FY26 profit Rs 0.87 cr of other income (6% of PBT); its nature (interest, scrap, export incentives) is not known without the RHP. Shown for information.	0	0	-0.87	No (information)	Low	16.6x	trackers (total income 211.34 vs revenue 210.47)

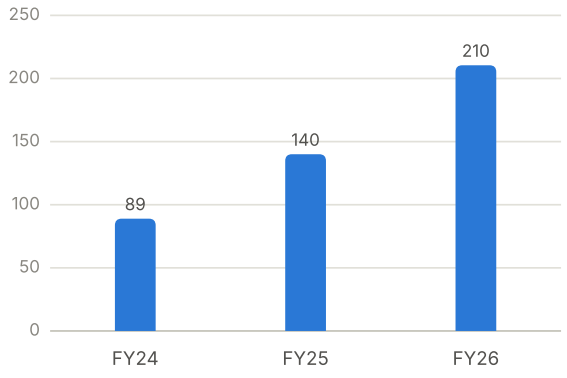

Also checked, no adjustment needed

✓ PASS PAT growth (146%) ahead of revenue growth (50%) is explained by the EBITDA margin rising from 8.68% to 11.43% on a small base; not tested against the notes

✓ PASS Cash tax, capitalised costs, exceptional items and related-party pricing could not be tested without the RHP

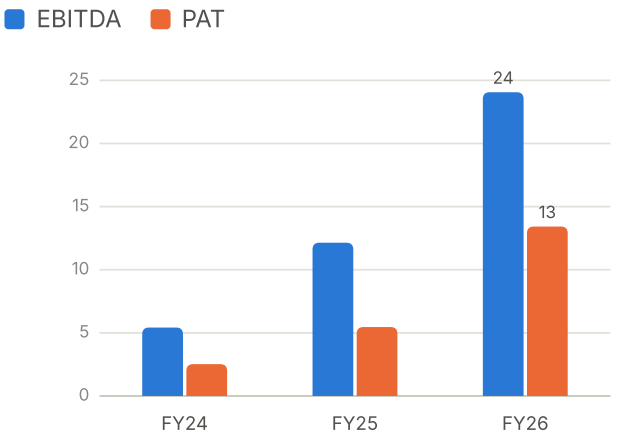

Revenue from operations

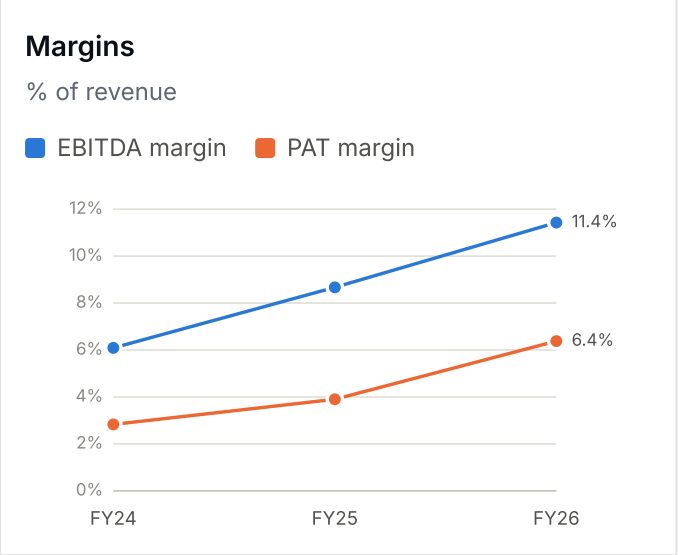

Rs crore

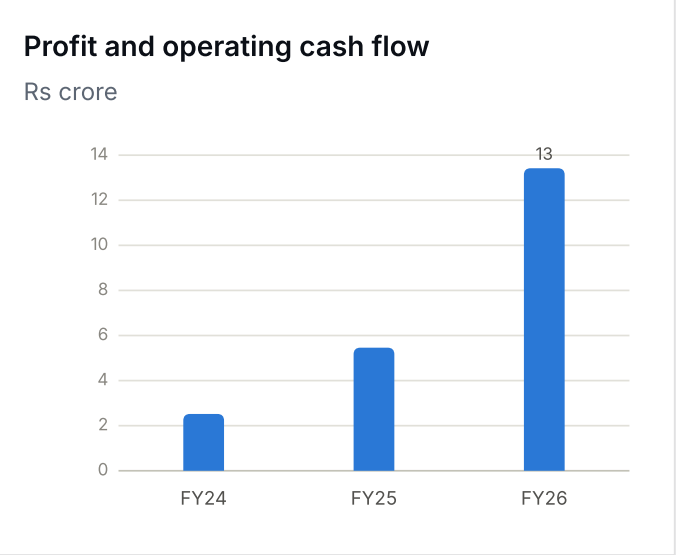

EBITDA and PAT

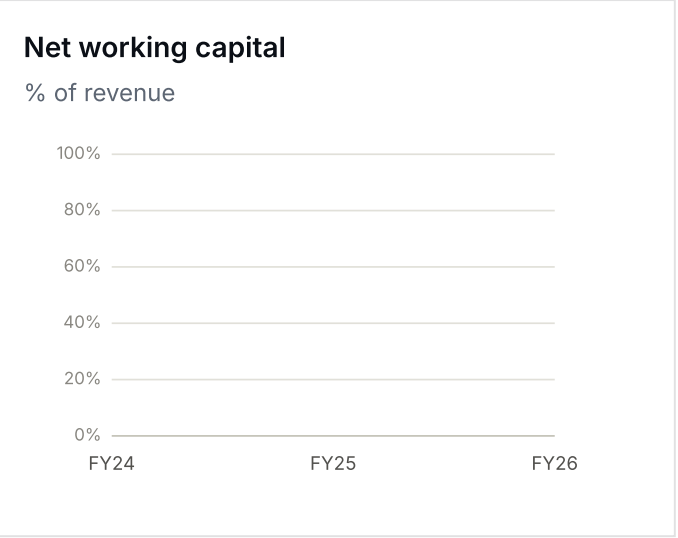

Rs crore

6. Future outlook and projections

Neutral case from the valuation model; Bear and Bull are in the valuation workbook.

- **Use of the issue (Rs 56.02 cr):** new factory shed Rs 7.89 cr; additional plant and machinery Rs 9.90 cr; paper-insulated copper/aluminium conductor machinery Rs 6.89 cr; rooftop solar plant Rs 3.23 cr; working capital Rs 14.00 cr; the balance (about Rs 14 cr) is general corporate purposes and issue expenses. One tracker shows a small OFS instead; most show a fresh issue only.
- **After the issue:** if borrowings stay at FY26 levels, debt/equity falls to about 0.95x. The new lines add capacity from FY27-28.
- **Neutral projection used in the model (Rs crore):**

	FY26 (actual)	Y1	Y2	Y3	Y4	Y5
Revenue growth	50%	20%	16%	13%	11%	9%
Revenue	210.47	252.56	292.97	331.06	367.48	400.55
EBITDA (10.5%)	24.06	26.52	30.76	34.76	38.59	42.06
Free cash flow to firm	-37.9	-5.8	-7.3	7.7	11.2	15.1

Neutral growth is set well below the last two years, because funding working capital, not demand, is the constraint. Working capital at 40% of revenue absorbs most of the profit in the first two years. The FY26

"actual" free cash flow is our estimate (see section 7).

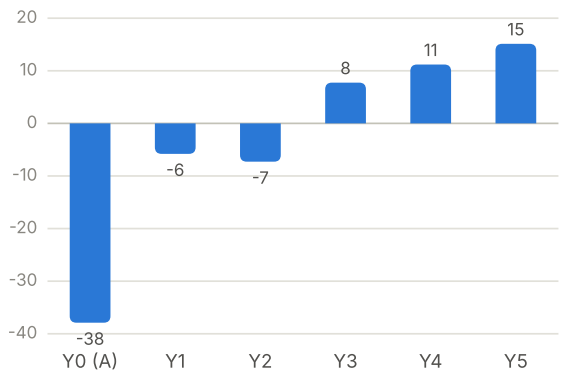

Projected revenue and EBITDA (Neutral)

Rs crore; Y0 is the latest audited year

Projected free cash flow to firm (Neutral)

Rs crore

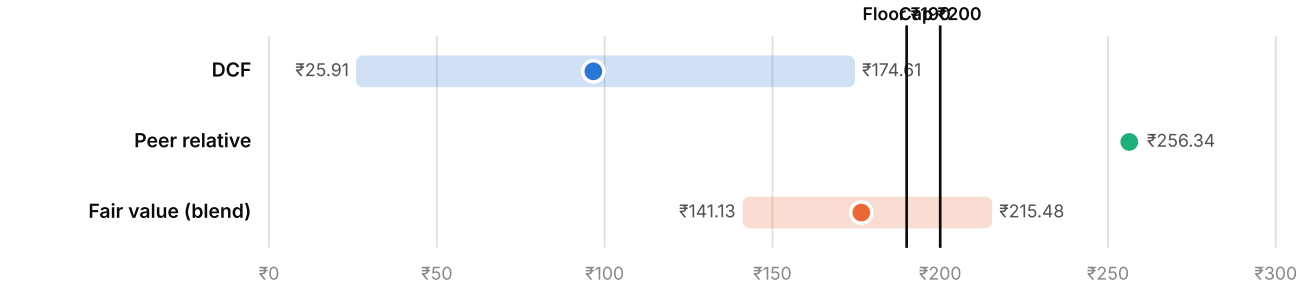

7. Valuation: DCF and peer comparison (P2P)

DCF and peer values shown separately, then blended. Reference: Upper band Rs 200 (28,00,800 fresh shares, Rs 56.02 cr). At Rs 200: market cap Rs 211.4 cr post-issue; P/E 15.75x on FY26 PAT (11.58x pre-issue); P/B 2.51x post-issue; EV/EBITDA about 9.9x. Peer median P/E 20.2x. Objects floor Rs 159.

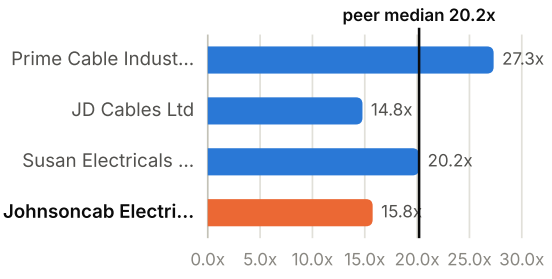

Value per share (Bear – Neutral – Bull)

Bar spans Bear to Bull; dot is Neutral. Vertical lines mark the price band.

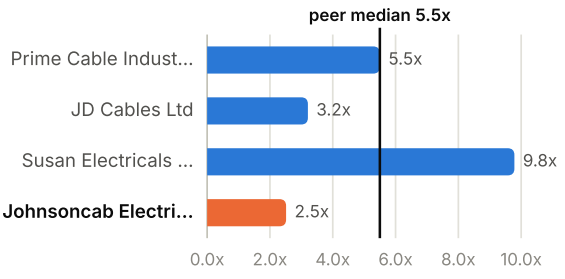

Peer P/E

Issuer at the reference price (orange) vs listed peers

Peer P/B

Issuer on post-issue net worth

Scenario summary

RS/SHARE	DCF	RELATIVE	FAIR VALUE	VS REFERENCE
Bear	₹25.91	₹256.34	**₹141.13**	-29.4%
Neutral	₹96.64	₹256.34	**₹176.49**	-11.8%
Bull	₹174.61	₹256.34	**₹215.48**	7.7%

WACC **14.4%**

Terminal value share of EV **93.2%**

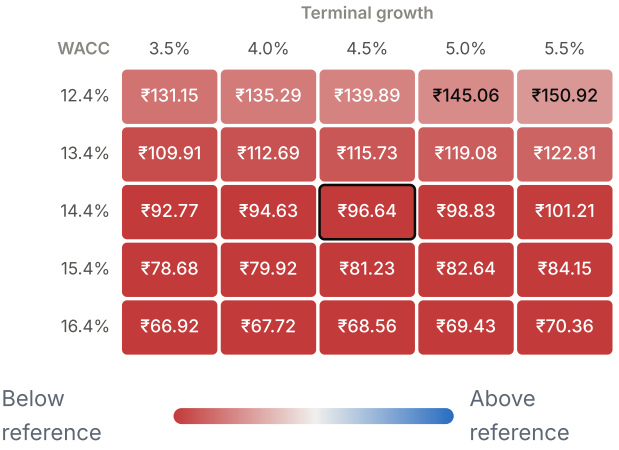

Reverse DCF: what the reference price assumes

LEVER	REQUIRED	ACTUAL
implied perpetual growth on current FCFF	n.m. (FCF negative)	4.5%
implied WACC at terminal g	n.m. (FCF negative)	14.4%
required EBIT margin (steady state)	19.1%	10.9%
required NWC % of revenue (steady state)	Unreachable: needs negative working capital	45.1%

Current free cash flow is negative, so no multiple can be stated: the price assumes cash generation improves from here.

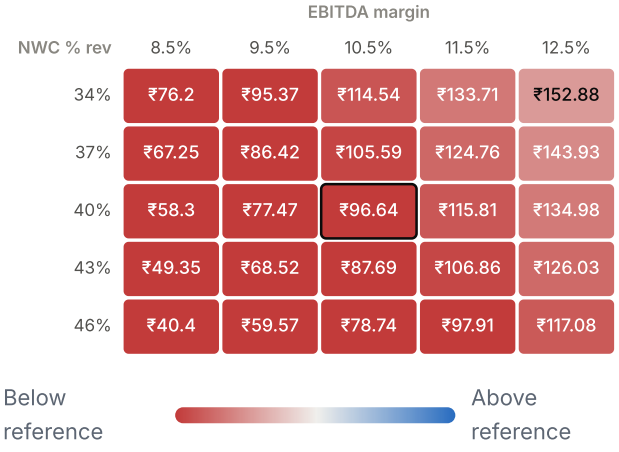

Sensitivity: WACC vs terminal growth

DCF value per share (Rs). Blue above, red below the reference.

Sensitivity: working capital vs EBITDA margin

DCF value per share (Rs).

Peer comparison (P2P)

Peers are the listed SME cable makers named in the offer document, as reproduced by IPO Central and IPO Platform. Prices are as reported there (early August 2026); P/B is our computation (price / NAV).

Company	CMP (Rs)	EPS (Rs)	NAV (Rs)	RoNW	P/E	P/B
Prime Cable Industries	182.43	6.68	33.17	20.14%	27.3x	5.5x
JD Cables	207.95	14.07	64.82	21.70%	14.8x	3.2x
Susan Electricals India	241.47	11.96	24.68	47.42%	20.2x	9.8x
Johnsoncab at Rs 200 (post-issue, FY26)	200	12.70	79.57	42.68%	**15.75x**	**2.5x**
Peer median				21.7%	20.2x	5.5x

Read: Johnsoncab is priced at a discount to the peer median P/E (15.75x against 20.2x), with returns at the top of the group. The P/B looks low only because about 60% of the post-issue book is fresh issue cash.

DCF and fair value

Inputs (FY26; Rs crore): revenue 210.47; EBITDA 24.06; PAT 13.42; net worth 31.44; net debt taken as gross borrowings 79.88 (cash not disclosed, so none is credited). **Estimates, not reported:**

- D&A Rs 1.2 cr and capex Rs 4.2 cr, inferred from EBITDA, PAT and interest on average debt.
- Working capital about Rs 95 cr (FY25 about Rs 43 cr). This is total assets less estimated fixed assets and cash, less non-debt liabilities. On this basis the FY26 sources and uses reconcile.

The fresh issue is credited net of 6% assumed expenses (Rs 52.66 cr). IPO-funded capex is Rs 27.91 cr.

Cost of capital (house CAPM): risk-free 6.5%, beta 1.10, ERP 7.0%, size premium 2.0%; cost of equity 16.2%; pre-tax cost of debt 9.5%; debt weight 20%. **WACC 14.38%**; terminal growth 4.50%; terminal ROIC 18%. Terminal value is 93% of enterprise value.

Relative method: peer-median P/E only. P/B is switched off for this issuer, because applying the peers' 5.5x to a book that is mostly fresh cash would value that cash at 5.5 times face. Peer EBITDA is not available, so EV/EBITDA is not used either.

Rs per share	Bear	Neutral	Bull
DCF	25.91	96.64	174.61
Relative (peer-median P/E)	256.34	256.34	256.34
Fair value (50:50 blend)	**141.13**	**176.49**	**215.48**
Against Rs 200 (upper band)	-29.4%	-11.7%	+7.7%
Against Rs 190 (floor)	-25.7%	-7.1%	+13.4%

- **Scenario drivers:**
  - Growth: Bear 6-12%, Neutral 9-20%, Bull 11-30% a year.
  - EBITDA margin: 8.5% / 10.5% / 12%.
  - Working capital: 47% / 40% / 35% of revenue.
  - Terminal ROIC: 14% / 18% / 22%.
- **Why DCF and peers diverge (-62%):** a cable maker selling partly to government customers ties up about 40 paise of working capital per rupee of sales. Most of the profit is reinvested, and free cash flow stays thin until growth slows. Peer P/E multiples look past this.
- **Sensitivity (Neutral DCF):**
  - WACC 12.4-16.4% gives Rs 140-69.

    - At 40% working capital, margin 8.5-12.5% gives Rs 58-135.
    - At 10.5% margin, working capital 34-46% gives Rs 115-79.
    - Margin and working capital move value as much as the discount rate.
- **Objects floor:** Rs 159 a share (Rs 41.91 cr of objects over 28.01 lakh shares, after expenses), below the band.
- **Reverse DCF at Rs 200:** current free cash flow is negative, so no multiple can be stated. **In plain words: the price assumes the 11% margin holds and that working capital stops growing faster than sales once the new capacity is in.**

8. Areas to watch and growth drivers

Growth drivers to track

- **New capacity:** commissioning of the new shed, plant and conductor line (FY27-28) and their utilisation.
- **Margin:** EBITDA margin holding near 10-11% through copper-price moves.
- **Working capital:** receivable days, especially on government business; operating cash flow turning positive.
- **Debt:** borrowings falling as the issue's Rs 14 cr working-capital money replaces bank lines.

Points to monitor

Item	Now	Why it matters to an investor
Leverage	Debt/equity 2.54x (FY26)	Interest eats into a thin margin
Working capital	Estimated 45% of revenue	Decides whether profit becomes cash
Margin durability	11.4% in FY26, up from 6.1% in FY24	First year at this level
RHP details	Cash flow, customers, RPTs, litigation	Not yet read
Liquidity	SME platform, 1,200-share minimum	Exit depends on market-maker depth

What would change our view

- **Towards Subscribe:** allotment at Rs 196 or below (the call rule reads Subscribe there); or RHP figures showing positive operating cash flow and lower working capital than estimated.
- **Towards Avoid:** RHP showing large related-party sales or purchases, a qualified audit report, or receivables much larger than estimated; or a price above about Rs 250.

Risks

- Copper and aluminium price volatility.
- Competition and pricing pressure from larger brands.
- Working-capital stretch and delayed government payments.
- Execution of the new capacity.
- SME liquidity and the 1,200-share minimum lot for retail.

9. Conclusion

CALL

Neutral

STAGE

SME · RHP

A Gujarat low-voltage cable maker that has grown revenue 2.4x in two years to Rs 210 cr and lifted EBITDA margin to 11.4%, priced at 15.8x FY26 earnings against a 20x SME-cable peer median; our fair value is Rs 176 (Neutral) because growth has been funded by debt and working capital, leaving little free cash flow.

Business stage

Early scaling (revenue up 2.4x in two years; issue funds new capacity and working capital)

Neutral at Rs 200 (upper band).

The investment case. A fast-growing Gujarat maker of low-voltage cables. Revenue has grown 2.4x in two years to Rs 210 cr, EBITDA margin has risen to 11.4%, and ROE is above 40%. The issue is all fresh money, for capacity, a new conductor line and working capital, and it roughly halves leverage. At 15.75x FY26 earnings it is priced below listed SME cable peers (median 20.2x), and the reported P/E is a fair measure on the data available.

What holds the value down. Growth has been funded by borrowings and working capital, so free cash flow has been negative. FY26 is the first year at an 11% margin, and leverage before the issue is high (2.54x).

Valuation. Fair value Rs 141 / **Rs 176** / Rs 215 (Bear / Neutral / Bull).

Call rule. The Neutral value is 11.7% below the upper band (between 10% and 30%), and the Bull value is above the price, so the call is **Neutral**. At the Rs 190 floor it would read Subscribe. No material issue was found in the data available.

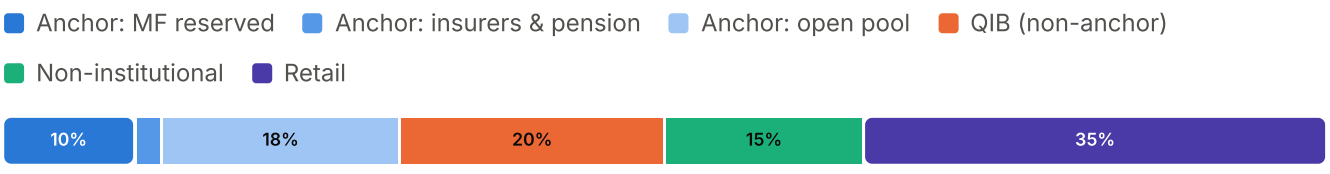

This is a **provisional** report built without the RHP. It will be refreshed when the RHP is read, and the open checks (cash flow, customers, related parties, litigation) could move the call either way.

Appendix

Offer structure and lock-ins, lead managers' track record, diligence checks and supporting detail.

Issue split by investor category (Rs 56 cr net offer)

The open anchor pool is the part an AIF competes for; allocation is discretionary.

Lock-in expiries known from the offer document

Appendix A: Offer, anchor book and lock-ins

- **Structure:**
  - Fresh issue of 28,00,800 shares (Rs 56.02 cr at Rs 200); no OFS.
  - Market-maker reservation of 1,41,600 shares.
  - Net offer: QIB up to 50% (anchor up to 60% of that), NII at least 15%, retail at least 35%.
- **Objects:** shed Rs 7.89 cr; plant Rs 9.90 cr; conductor machinery Rs 6.89 cr; rooftop solar Rs 3.23 cr; working capital Rs 14.00 cr; GCP and issue expenses the balance.
- **Anchor book:** if there is an anchor portion, it bids on 29-Oct-2026. The BSE SME allocation report is not reachable here.
- **Lock-ins:**
  - Promoters' minimum contribution (20% of post-issue capital, about 21.14 lakh shares) for three years.
  - The balance of promoter holding as per SEBI ICDR for SME issues.
  - Anchor shares 50% for 30 days and 50% for 90 days.

Appendix B: Merchant bankers

ISK Advisors Private Limited (sole BRLM, Ahmedabad). Its track record of past issues is not compiled in this run.

Appendix C: Diligence checks

#	Check	Status	Finding
1	Share count	PASS	NAV and EPS imply about 77.7 lakh pre-issue shares, consistent with P/E 11.58x pre-issue
2	Cash flow vs PAT	OPEN	Not available; debt and total assets doubled in FY26
3	Current vs deferred tax	OPEN	Not available
4	Related-party dealings	OPEN	Not available
5	Objects as price floor	PASS	Rs 159, below the band
7	Goodwill	OPEN	None reported by trackers
8	Concentration	OPEN	Customer split not available; both plants in Mehsana
9	Contingent liabilities	OPEN	Not available
R1	Auditor	OPEN	Not available
R3	Monitoring agency	N.A.	Mandatory above Rs 50 cr; to be named in the RHP
R5	SME eligibility	OPEN	Appears met on reported numbers
R6	BRLM track record	OPEN	Not compiled

No check met the Fund's test for a material issue, but most checks are open until the RHP is read.

Appendix D: Data gaps and verification

Data gaps

Item	Severity	Where to source
RHP not obtainable; tracker figures, no page cites	High	RHP (BSE SME)
Cash flow statement, receivables, inventory, payables (working capital estimated)	High	RHP restated financials
Customer concentration; government / private / dealer mix	Medium	RHP business section
Capacity utilisation	Medium	RHP business section
Promoter holding, RPTs, litigation	Medium	RHP
Anchor book	Low	BSE SME
ISK Advisors track record	Low	RHP / BRLM website

Verification

- **Trackers agree:**
  - Revenue, PAT, net worth and borrowings match across IPO Central, unp.me, HDFC Sky and Chittorgarh.
  - FY26 revenue is shown as Rs 210.47 cr (revenue from operations) or Rs 211.34 cr (total income).
- **Valuation ratios reconcile:**
  - Pre-issue P/E 11.58x x PAT Rs 13.42 cr = Rs 155.4 cr = 77.7 lakh shares x Rs 200.
  - Post-issue P/E 15.76x = (77.7 + 28.0) lakh shares x Rs 200 / PAT.
  - P/B 4.94x pre-issue = Rs 155.4 cr / net worth Rs 31.44 cr.
- **FY26 funding reconciles on our working-capital estimate:**
  - Sources: PAT 13.4 + D&A 1.2 + new borrowings 38.1 + new equity 3.8.
  - Uses: working-capital build about 52 + capex about 4.
- **Workbooks:** the toolkit verification gate passed on this build.

Sources: IPO Central, IPO Platform, HDFC Sky, Chittorgarh, unp.me, NiftyTrader, read 28-Oct-2026.

Disclaimer and disclosures

This material is published by Parshwanath Capital Ventures Fund, a Category III Alternative Investment Fund registered with the Securities and Exchange Board of India (SEBI) under the SEBI (Alternative Investment Funds) Regulations, 2012, Registration No. IN/AIF3/25-26/2108. Fund Manager: CA Deep Dalal. Sponsor: Jignesh Shah.
