> Judged at the **upper band, Rs 162**. Holding period assumed: 2-3 years. Grey market premium is not used. Written from an investor's point of view under the Fund's standing rules.

1. Business of the company

- **What it does:** a regional jewellery retailer selling gold, diamond and CZ jewellery through its own showrooms; it buys finished jewellery from third-party manufacturers in Maharashtra and Gujarat rather than making it (pp. 156-157).
- **Footprint:** five leased showrooms, three in Mumbai and two in Ahmedabad, 6,513 sq ft in all (p. 91). The two Ahmedabad showrooms opened in FY24 and gave 62.40% of 9M FY26 revenue (77.17% in FY25) (pp. 21, 23).
- **Range:** more than 17,452 SKUs (13,322 gold designs, 4,130 diamond and stone designs) across 11 collections, from about Rs 11,000 upwards; bridal and daily wear (p. 157).
- **History and structure:** the promoter has sold jewellery since 1999 through his proprietorship, M. K. Sons Jewellers. The company (incorporated 2012) took over that business on 29-Mar-2025 under a business succession agreement, in exchange for 40,38,152 shares valued at Rs 71.07 cr (pp. 156, 189). The full-year effect of the merger therefore shows only from FY26.

Stage of the business

Classification: early scaling.

Evidence	Reading
Revenue Rs 24.91 cr (FY23) → Rs 217.32 cr (FY24) → Rs 351.28 cr (FY25); Rs 360.82 cr in 9M FY26	Rapid growth from new Ahmedabad showrooms and the merger
EBITDA margin 5.92% (FY24) → 10.98% (FY25) → 13.36% (9M FY26)	Scale and gold prices lifting margins
Inventory Rs 44.81 cr → Rs 240.59 cr (Dec-25); inventory days 205	Growth needs heavy stock
Issue funds Rs 151.51 cr of inventory for a new Maharashtra showroom and a bigger Ahmedabad showroom in FY27	The next leg is capital-funded

2. Industry outlook

Industry figures come from the CareEdge report commissioned and paid for by the issuer (p. 156); we have not checked them independently.

- **Market:** gems and jewellery are about 7% of India's GDP and 15% of merchandise exports; domestic jewellery demand is driven by weddings, festivals and gold's role as savings (pp. 111 onwards, 156).
- **Shift to organised retail:** hallmarking (BIS), GST and consumer preference for trusted brands are moving share from unorganised jewellers to organised chains, regional and national (p. 111 onwards).
- **Gold price:** high gold prices raise ticket sizes and the value of inventory, but can cut volumes; small retailers usually do not hedge (p. 143 onwards).

- **Competition:** national chains (Tanishq, Kalyan, Malabar, Senco) and strong regional players; listed peers named are Motisons, Tribhovandas Bhimji Zaveri, Senco Gold and PNGS Reva (p. 100).
- **Read for an investor:** a large, formalising market where regional players can grow by adding stores, but returns depend on inventory turns and the gold cycle.

3. Moat and SWOT analysis

Moat

- **Local brand and trust** in Mumbai (Bandra) and Ahmedabad (C. G. Road), built since 1999 (p. 156).
- **Asset-light sourcing:** buying finished pieces from many vendors keeps capital in stock rather than factories (p. 157).
- **Limits:** five stores, two cities and a promoter-family business; there are no structural barriers against national chains.

STRENGTHS	WEAKNESSES
• Revenue up from Rs 24.91 cr to Rs 351.28 cr in two years (p. 227) • EBITDA margin 13.36% and ROCE 26.84% in 9M FY26 (p. 101) • 17,452-SKU hallmarked range (p. 157) • Debt/equity 0.50x before the issue (p. 101)	• Five showrooms; Ahmedabad 62.40% of revenue (p. 23) • Inventory days 205; negative CFO FY23-25 (pp. 101, 228) • Short history as a combined entity (p. 189) • Young board; promoter family about 100% pre-issue (pp. 65-66, 78)
OPPORTUNITIES	**THREATS**
• New Maharashtra and expanded Ahmedabad showrooms in FY27 (p. 91) • Shift to organised hallmarked jewellery (p. 111 onwards) • Higher-margin diamond jewellery (p. 157)	• Gold price falls (p. 143 onwards) • National chains in Mumbai and Ahmedabad (p. 100) • Seasonal demand (p. 22)

4. Management analysis and governance

- **Board (six, pp. 65-66):** Ramchand Raimalani (Chairman and MD), Neelam Raimalani and Kush Raimalani (Whole-time Directors), and three independent directors (Aakash Keshari, Luke Fernandez, Shrenik Shah), appointed in FY26.
- **Ownership:** promoter family about 100% before the issue (Ramchand Raimalani 96.25%, Neelam Raimalani 3.75%) (p. 78). After the fresh issue and OFS the family would hold about 69.8% (our computation).
- **Cost to promoters:** the weighted average cost of shares acquired in the last 18 months is Rs 35.20; shares issued for the business transfer were valued at Rs 176 before the bonus issues (pp. 75, 84).
- **Pay:** Rs 1.65 cr a year to the three promoter directors at the FY26 rate; none was paid before FY25 (pp. 64, 195).

- **Related parties:** FY25 purchases of Rs 21.52 cr from the promoter's proprietorship before it was merged in; promoter loans (Rs 1.52 cr at Dec-25, down from Rs 12.35 cr at Mar-24); rent to the promoter for showrooms (Rs 1.23 cr in 9M FY26); purchases from promoter-group company Spicy Sangria Hotels (p. 64).
- **Litigation:** no criminal or regulatory cases. Income-tax matters for AY 2012-13 (Rs 1.64 cr) and others, and contingent income-tax demands of Rs 4.995 cr (pp. 63, 319).
- **Read:** a founder-run family business that has just formalised its structure: it merged the proprietorship, converted to a public company in Jan-2026 and added independent directors. Governance is young; the merger removed the main related-party overlap. None of this is a material issue under the Fund's rules.

6. Future outlook and projections

Neutral case from the valuation model; Bear and Bull are in the valuation workbook.

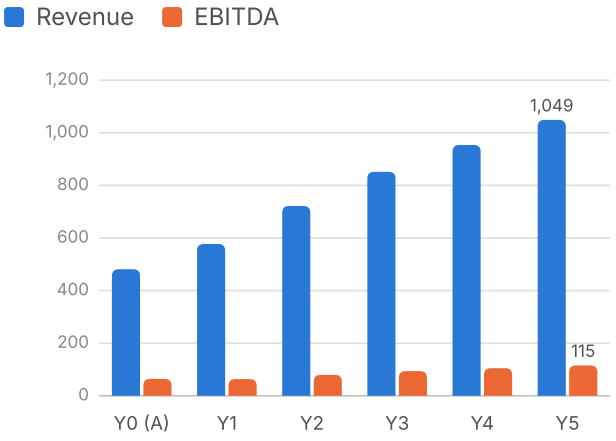

- **Use of the issue:** Rs 151.51 cr of inventory for a new Maharashtra showroom and expansion of the C. G. Road, Ahmedabad showroom in FY27; Rs 30.00 cr to repay borrowings; the rest is GCP (pp. 89-91). Fit-out and lease costs are funded from accruals.
- **What the new inventory can support:** current revenue is about 2x inventory (Rs 481 cr annualised on Rs 241 cr of stock), so the added stock can, as it turns, support a large step-up in sales over two to three years.
- **Neutral projection used in the model (Rs crore):**

	9M FY26 annualised	Y1	Y2	Y3	Y4	Y5
Revenue growth	37%	20%	25%	18%	12%	10%
Revenue	481.10	577.31	721.64	851.54	953.72	1,049.10

Peer median					10.6%	21.9x	2.3x

Read: on annualised current earnings, M. K. Sons is priced close to the peer median (23.4x against 21.9x) with a higher return on equity, but it is far smaller, concentrated in two cities and earlier in its life as a combined company. Motisons, the closest regional peer, trades at 32.9x; TBZ, the Mumbai incumbent, at 13.5x.

DCF and fair value

Inputs (9M FY26 annualised; Dec-25 balance sheet; Rs crore): revenue 481.10; EBITDA 64.26; D&A 3.42; PAT 38.89; net worth 145.42; net debt 64.60 (borrowings 72.11 + leases 6.30 - cash 13.81); working capital 215.41 (Mar-25 185.34); capex 2.85. Fresh issue Rs 220.32 cr (1.36 crore shares) credited in the equity bridge.

Cost of capital (house CAPM, editable): risk-free 6.5%, beta 1.10, ERP 7.0%, size premium 2.0%, no company-specific premium; cost of equity 16.2%; pre-tax cost of debt 10.0%; debt weight 20%; **WACC 14.46%**; terminal growth 4.50%; terminal ROIC 16%. Terminal value is 90% of enterprise value (the DCF leans on the terminal year because growth absorbs working capital in the explicit years).

Against Rs 153 (floor)	-32.6%	-21.9%	-7.9%

- **Scenario drivers:** growth 7-12% / 10-25% / 12-32% a year; EBITDA margin 8.5% / 11% / 13%; working capital 50% / 45% / 40% of revenue; terminal ROIC 12% / 16% / 20%. Rationale and page cites are in the valuation workbook.
- **Why DCF and peers diverge (-41%):** jewellery retail ties up about 45 paise of working capital per rupee of sales, so most of the profit is reinvested in stock and free cash flow stays thin; listed peers trade on earnings multiples that look past this.
- **Sensitivity (Neutral DCF):** WACC 12.5-16.5% gives Rs 109-75; margin 8.5-13% gives Rs 66-107; working capital 40-50% gives Rs 96-81.
- **Objects floor:** Rs 133.46 a share (Rs 181.51 cr of objects over 1.36 crore fresh shares) sits above the blended Neutral value but below the band; it is mostly inventory, which keeps its value.

- **Reverse DCF at Rs 162:** the price asks the business to deliver 47.2 times its current free cash flow in perpetuity. **In plain words: the price assumes the new showrooms turn their stock quickly and that margins hold near today's gold-price-assisted levels.**

8. Areas to watch and growth drivers

Growth drivers to track

- **New showrooms:** opening of the Maharashtra showroom and the expanded Ahmedabad store in FY27, and their sales per sq ft (p. 91).
- **Inventory turns:** revenue/inventory back above 2x; inventory days below 180.
- **Margin:** EBITDA margin above 11% if gold prices stabilise (p. 101).
- **Mix:** diamond and studded jewellery share (p. 157).
- **Cash flow:** operating cash flow positive in a growth year.

Points to monitor

Item	Now	Why it matters to an investor
Gold-price exposure	Inventory Rs 240.59 cr, no hedging disclosed (p. 226)	A gold fall hits margins and stock value
Geographic concentration	Ahmedabad 62.40% of revenue (p. 23)	One market drives results
Related parties	Rent and loans from the promoter; FY25 purchases from his proprietorship (p. 64)	Arm's-length terms
RHP updates	Pre-IPO placement, restated numbers, dates	DRHP figures used here
Governance	Board reconstituted in FY26 (pp. 65-66)	Oversight as a listed company

What would change our view

- **Towards Subscribe:** allotment at a lower effective price, or RHP numbers showing FY26 profit well above the annualised 9M level with positive cash flow.
- **Towards Avoid:** a weaker gold-price environment compressing margins, or slow sales at the new showrooms.
- **Price:** fair value changes only slightly with the price (the fresh issue is a fixed share count). The call rule reads Subscribe at or below about Rs 124 and Avoid above about Rs 175.

Risks

- Gold-price volatility (p. 143 onwards).
- Regional concentration and competition from national chains (pp. 23, 100).
- Inventory build and working-capital needs (p. 21).
- Seasonality (p. 22).
- Execution of the new showrooms (p. 21).

STAGE

Mainboard · RHP

A fast-growing Mumbai-Ahmedabad jewellery retailer (5 showrooms, 13% EBITDA margin) raising Rs 220 cr of fresh money to stock new showrooms, priced at 23x annualised earnings against a 22x peer median; our fair value is Rs 120 (Neutral) because inventory-heavy growth leaves little free cash flow.

Business stage Early scaling (5 showrooms, expanding with issue-funded inventory)

Neutral at Rs 162 (upper band).

The investment case. A fast-growing regional jeweller with five showrooms in Mumbai and Ahmedabad, a 13% EBITDA margin and about 27% ROCE. The issue is mostly fresh money (Rs 220 cr) to stock a new Maharashtra showroom, expand in Ahmedabad and repay some debt, which leaves the balance sheet strong. On annualised current earnings the price (23.4x) is close to listed jewellery retailers (median 21.9x), and the reported P/E is a fair measure.

What holds the value down. Inventory-heavy growth means little free cash flow, the business has a short history as a combined entity, two-thirds of sales come from Ahmedabad, and part of the recent margin expansion likely reflects rising gold prices.

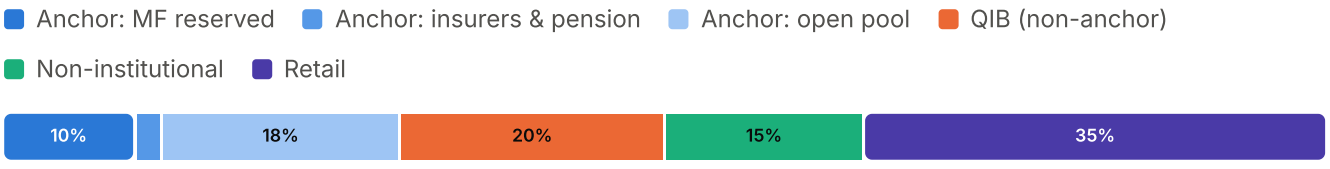

Valuation. Fair value Rs 103 / **Rs 120** / Rs 141 (Bear / Neutral / Bull). **Call rule:** the Neutral value is 26.2% below the upper band (between 10% and 30%), so the call is **Neutral**. No material issue was found. This report uses DRHP figures because the RHP was not reachable; it will be refreshed if the RHP changes the numbers.
